Thanks to Sharon Neysmith who drew our attention to these photographs

The front entrance. There is nothing to indicate this is a Hydropathic Institute rather than a private house. Photo taken 5th September, 1889

Interior view of the dining room at the Darley Dale Hydrophatic Establishment. The Bedford Lemere daybook lists the architect as T Worthington, and the client as W Atkins. In 1904 the building was converted into a school, and in the 21st century into part of a retirement village. Photo taken 5th September, 1889

A bedroom at the Darley Dale Hydropathic Establishment. The Bedford Lemere daybook lists the architect as T Worthington, and the client as W Atkins. In 1904 the building was converted into a school, and in the 21st century into part of a retirement village. Photo taken 5h September, 1889

8. The west front, including the winter garden. Photo taken 5 September, 1889
